# HASWANTH TAMIL

Fullstack Developer (Django)

+917339312996   •   haswanthtamilofficial@gmail.com   •   Chennai, TN, India   •   Portfolio

## Work Experience

**Freelance: MRM Furniture**
• Designed and developed a responsive B2B landing page for a furniture manufacturer using HTML, Tailwind CSS, and vanilla JavaScript for optimal speed and simplicity.
• Delivered the project within 7 days, adhering strictly to both time and budget constraints with zero overruns.
• Focused on clear UX and business conversion, tailored to a professional B2B audience and showcasing key products effectively.
• Built with lightweight, scalable frontend architecture, ensuring fast load times and cross-device compatibility without relying on frameworks.

**Project Lead: (CollabBoard – Minimalistic productivity platform)**
• Spearheaded the end-to-end design and development of a functional MVP within a tight two-week timeline.
• Coordinated and managed a cross-functional dev team, ensuring smooth collaboration and timely delivery.
• Delivered polished UI/UX interfaces wired to backend services, balancing speed and usability for real-world application.
• Navigated scope, technical challenges, and team dynamics, gaining hands-on experience in agile project management and problem-solving.

## Skills

**Frontend:** HTML, CSS, JavaScript, Typescript, Tailwind CSS, ReactJS, NextJS, Zustand, Framer Motion.
**Backend:** Python (Django), Django REST Framework, Postman, SQLite.
**Tools and Design:** Git/GitHub, VS Code, Figma, UI/UX design, Vercel, MongoDB Atlas, Render, Clerk auth.
**Soft skills:** Fast learner, Team management, Problem-solving, Critical thinking, Communication, Time management.

## Education

• Self-driven learner of modern web technologies: React, Next.js, Django
• Hands on experience in collab projects
• Actively participating in coding communities and hackathons
